

Driving Rivets to Driving Automation Workshop

Thursday, April 12, 2012
National Center for Aviation Training
8:00 a.m. – noon
Admission: FREE with RSVP

Come learn from industry experts about the productivity and cost efficiencies of incorporating automation into your operations.

Presentations * Exhibits * Networking

These and many other questions to be addressed:

- What are the benefits of automation?
- When does it make sense to add automation?
- Are there examples of small – mid-sized companies who benefit from automation?
- What type of local training is available?
- Are there resources available to help me add equipment and train employees?

RSVP and email your questions to:
gproboticsalliance@gmail.com or bshelton@gwedc.org

April 7 - 15 is National Robotics Week.
